

Girls' Persist

1-Week Summer Camp

@ South Ridge Elementary School

Empower a Girl. Change the World.™

Girls' Persist STEM Leadership Program infused with Math Efficacy

Our evidence-based STEM leadership program is designed to put problems into practice while fostering an environment for girls to thrive. The program consists of scenario-based leadership activities viable for shaping self-efficacy while increasing her capacity for science, technology, engineering, and mathematics. The program utilizes the proprietary *The Self-efficacy Test skills-building models of learning*© to assist adolescent girls with self-confidence, critical thinking skills, and decision-making while influencing overall STEM persistence.

Program Activities

- Self-efficacy Test Skills-based models of learning ©
- Individual and small group scenario-based problem-solving
- Individual and small group math formula building exercises and learning activities.
- The SUS Model ©
